Pat. ID	: 530315	Requisition Date.	: 2020-08-03 15:56:51
Patient Name	: NAME HERE	Sample Type	: Out
Age/Gender	: 27 Y/F	Referral Doctor	: chandramani
Address	: Kathmandu	Referral Hospital	: EDCCD
Phone No.	: 9841414141	Collection Site	: Gangalal Hospital
Passport /Personal Id No :			

COVID-19 LAB

Collected Date: 2020-08-03 15:56:52

Reported Date: 2020-08-03 19:50:26

Test Name	Result	Unit	Reference Range	Remarks
SARS-CoV-2 (2019-nCoV) Method: Real Time RT-PCR(Throat swab/Nasopharyngeal/BAL)	negative			

Corona Virus Test *

Kit used: Taqpath

Limit of detection: 10 GCE/reaction (50 GCE/ml)

GCE: Genomic copy equivalent.

INTERPRETATION:

POSITIVE : SARS-CoV-2 virus detected. Consider infected for COVID-19. Isolation recommended, seek medical advice about COVID-19 according to current protocol.**INCONCLUSIVE**: SARS-CoV-2 virus status cannot be known. Consider infected for COVID-19. Isolation recommended, seek medical advice about COVID-19 according to current protocol.

Repeat testing or additional testing can be considered after clinical evaluation.

NEGATIVE: SARS-CoV-2 virus not detected. Negative result does not rule out the possibility of Covid-19 infection. As PCR tests have low sensitivity both in early and late infections, lack of sufficient RNA specific to SARS-CoV-2 in the tested specimen and viral mutations may influence test result. Kindly correlate the results with clinical findings. Additional sampling from lower respiratory tract samples like Sputum, BAL, ET aspirate are recommended especially in severe lung disease.
